EXPERIENCE

UX Consultant, NAF

AUG 2023 - CURRENT

- redesigning features in the current visual style to improve the experience for teacher and student users
- presenting mockups and making iterations based on feedback from the team
- delivering prototypes to properly hand off to the developer

UI/UX Engineer, Sicura

SEP 2021 - JUL 2023

- designed the UI as the sole designer from start to finish
- presented mockups, and prototypes to stakeholders
- collaborated directly with developers to implement new designs and improve existing features
- initiated and maintained a comprehensive design system with usage guidelines, examples, and code snippets to support developers and onboard new employees
- conducted user research and usability testing with SMEs and iterated designs based on user feedback

UI/UX Designer, Onyx Point

JAN 2018 – SEP 2021

- designed a web UI for a B2B SaaS cybersecurity compliance automation product
- collaborated with the development team to build the product as the starting and sole designer
- conducted user research and usability testing by learning from SMEs and the sales team with customer feedback

Interaction Designer, UMBC Division of Information Technology

NOV 2012 – JAN 2018

- designed graphics and redesign mockups for *myUMBC*, the campus student portal
- collaborated with a team to design and develop the *STEM Transfer Student Success Initiative* website and applications
